What is Regrouping?

- Regrouping is like trading in money
- Sometimes we need to break down larger units into smaller ones
- It helps us subtract when the top number is smaller than the bottom number in a column
- Can you think of a time when you've had to break something big into smaller parts?

When Do We Need to Regroup?

- We regroup when we can't subtract the bottom number from the top number in a column
- For example: $43 - 25$
- Can you subtract 5 from 3? No!
- That's when regrouping comes to the rescue!
